SILVER ROSE CYCLE

HONOUR YOUR COSMIC PORTAL

As part of deepening our awareness and connection to the body as SACRED, we will continue to map and consciously commune with the Womb and its symbiotic relationship with Gaia. I invite you into a ceremonial Rose way that is a model that follows the 5 cycles of the Moon, the Venus pentagram codes and the feminine Rose Rites, (5 petals of the Rose). It has been inspired by the Rose Moon Lodge which is a sacred space, symbolic of the Cosmic Womb where women can come to the High Rose altar to commune with our blood, with others and with the spirit and the elements. The Rose Moon Lodge is a formation that celebrates the spiritual and physical cycles and rhythms within our Womb.

Traditionally, in times not so long ago, when we were living closer with the Earth's rhythms and each other. The sacred lodge honours and celebrates the powerful and intuitive time of the bleeding phase during the dark of the moon. By entering the Moon Lodge, we step away from our normal active routine and come to rest, dream, nurture each other, receive spiritual insight, practice ritual and bleed into the Earth with prayers. Upon emergence from the Moon Lodge, women feel nourished, peaceful and ready to offer their gifts to their community with creative renewal, embodied wisdom and purpose.

This is a methodology that incorporates the Roses as healing and empowering tools and keys that carry a synthesis of the lunar phases, the Venus sequences and ancient indigenous knowledge. This model brings us into a direct relationship to ceremony and to our intrinsic feminine initiations, cycles, rhythms, harmonics and subtle higher-wisdom within. This model is a form of creative union with our feminine journey. The 5 Roses represent the 5 heavenly temples that we acknowledge, feel and journey with during our 29.5 days of the monthly Rosa Lunar Cycle. Each heavenly temple is a feminine spiritual threshold that brings us into intimate harmony with our essence, of passion, peace and wellness.

The Silver Rose | The Cosmic Gateway activation- corresponds to the Dark Moon phase and the 1st Temple of heaven. In essence this is our Sacred Union point with God/Goddess all that is. In the lunar mysteries it can be mapped between the Luteal and bleeding phase but remember it is a node and circuitry. It is the fullest descent of the Venus star and a mystical vortex of creativity that dwells within. This is a rich sensual point within our Rose womb mysteries and the Silver Rose codes guide this divine remembrance. Once we perceive, through our lunar senses, this node will bless us with guidance and messages holy to this gate point. One practice received through the cosmic gate is the calling of our blood flow. If you are bleeding this is your Red blood and those who are not bleeding it is your creative flow. When you become aware of this node it automatically re-activates and aligns your womb axis to health, vitality and to higher levels of creative potential and expression.

Her Mysteries-

Aligns and opens the cosmic gateway to our inner power and gifts as a soulful woman.

JOURNEY
AUDIO MEDITATION AVAILABLE IN
THE HOME TEMPLE PAGE.**

Your body is your teacher

Your Womb your Magika Hiera/House

Follow the journey when the Moon is in her Dark phase or when you are coming towards your bleeding. This journey will guide and integrate the opening of the cosmic gateway within the Womb. It will heal and re-activate so that you can track and mark this still-point.

When we honour and awaken these energies our instinctive being celebrates and radiates new levels of peace and ease within the body.

The Dark Moon is the junction phase around 1.5 to 3.5 days depending on the positioning of the earth and sun. This is a still-point before the New Moon.

INTUITIVE CALL

SACRED WOMB MYSTERIES

The Conscious call to our bleeding flow is a spiritual act of self love and union with your Rose within. It attunes us to our spiritual gifts and psychic awareness with ease. The Silver Rose Gate node is a time for dreaming, for creative renewal and magic.

In the ancient Gnostic traditions, and the Celtic Grail mysteries a woman's moon blood was known to carry the codes of creation and was considered a sacred elixir, that was drunk from the chalice, representing the life-giving power of the Divine Mother and would bring its life-giving powers to the one taking the sacrament.

When we are bleeding and synchronised with our cycle we become more cosmically and multi dimensionally aware. When we make love while we are bleeding, we can experience a merging between our sensual, sexual, erotic natures and our mystical natures.

In shamanic and mystical cultures, it has long been known that for a woman to make love to a man while she was bleeding was one of the highest initiations for a man.

Those of us who are remembering the ancient tantric star teachings know that this is a time to anoint our beloved with our sacred Lunar Rose mysteries for awakening and a deeper connection to life and love.

Conscious bleeding invites us to honour our sacred moon, a time to slow down and rest and renewal a time of cleanings. It is a time for dreaming and creativity expressing.
